Software Development Engineer (SDE) - Job Description

We are looking for passionate Software Development Engineers to join our team.

You will design, develop, and deploy innovative applications that serve millions of users.

Responsibilities:

- Write clean, maintainable, and efficient code.

- Collaborate with cross-functional teams to define, design, and ship new features.

- Debug and resolve software defects and issues.

- Continuously discover, evaluate, and implement new technologies to maximize development efficiency.

Requirements:

- Bachelor's degree in Computer Science or related field.

- Proficiency in at least one programming language: Java, Python, or C++.

- Understanding of data structures, algorithms, and software design principles.

- Familiarity with cloud platforms (AWS, Azure) is a plus.
